

# Status of efforts to reduce greenhouse gas emissions

Pacific Rundum Co., Ltd. (President & CEO: Shinichiro Susukida, Headquarters: Toyama) recognizes that preserving the global environment is one of the most important issues shared by all humankind, and is committed to "Let's make our earth refreshing with everyone's actions." .Under this slogan, in order to achieve "carbon neutrality", we will reduce greenhouse gas emissions by promoting energysaving activities such as converting the electricity used in our plants to renewable energy and introducing energy-saving equipment. The entire company will continue to work together on global environmental conservation activities.

## Greenhouse Gas (GHG) Emissions Reduction Targets

Scope of emissions	Definition for each scope	2030 target
Scope 1	Direct GHG emissions from the company itself (fuel combustion, industrial processes)	Greenhouse gas emissions (Scope1+2) will be reduced by 50% compared to 2018.
Scope 2	Indirect emissions from the use of electricity, heat and steam supplied by other companies	
Scope 3	Emissions of other companies related to the company's activities	Emission levels are calculated and efforts are made to reduce them.
