

### Efforts Toward the Reduction of Greenhouse Gas Emissions

Pacific Rundum Co., Ltd. (President: Shinichiro Susukida, Headquarters: Toyama) recognizes that the preservation of the global environment is one of the most critical issues facing humanity. Under the slogan “Refreshing the Earth through Everyone's Actions,” we are striving to achieve carbon neutrality. Our initiatives include the transition to renewable energy for factory power consumption and the promotion of energy-saving activities through the introduction of energy-efficient equipment. We are committed to continuing company-wide efforts toward environmental conservation.

#### GHG Reduction Targets (SBT)

Scope of emissions	Definition for each scop	2030 target
Scope1	Direct GHG emissions from the company itself (fuel combustion, industrial processes)	Greenhouse gas emissions (Scope1+2) will be reduced by 50% from 2018
Scope2	Indirect emissions from the use of electricity, heat and steam supplied by other companies	
Scope3	Emissions of other companies related to the company's activities	Emission levels are calculated and efforts are made to reduce them
